## Change Notification - 01 - 2019 – Gauge Guard Isolator Materials – Discontinuation GGI in Tuf-Steel®

Dear valued Business Partner,

Rubber Fab's Gauge Guard Isolator gaskets protect expensive diaphragms and instruments from damage without affecting instrument performance. Rubber Fab offers a wide range of materials with different certificates and the isolators are available in the following materials: EPDM, FKM, Silicone and PTFE.

Previously the Isolator Gaskets were also available in Tuf-Steel®, but we do not offer this variant in our portfolio anymore.

By combining a quality Rubber Fab sanitary gasket with a membrane, the Gauge Guard Isolator (GGI) gasket isolates hot or caustic saline solution from instrumentation, a necessary and cost effective step in assuring long life and accurate results from your instruments and gauges.

Due to the discontinuation of the Tuf-Steel® material for GGI following series is no longer available:

40GGI-~~TS~~-XXX

Rubber Fab's Gauge Guard Isolators will be still available in following series and materials:

EPDM	40GGI-E-XXX	Sizes: ¾", 1", 1 ½", 2"
FKM Fluoroelastomer	40GGI-SFY-XXX	Sizes: ¾", 1", 1 ½", 2"
Platinum Cured Silicone	40GGI-PX-XXX	Sizes: ¾", 1", 1 ½", 2"
PTFE	40GGI-G-XXX	Sizes: 1", 1 ½", 2"

Best regards,

Christoph Neuffer  
Rubber Fab - Application Engineer
